Year 1

- Future Automobile Revolution
- Automotive Engineering
- Python Programming
- Convergence Basic Electric and Electronic
- Convergence Basic Dynamics
- Auto CAD, etc.
- Digital logic circuit

Year 2

- Introduction to Eco-friendly Automobile Engineering
- Microprocessor
- Object-oriented Programming
- Autonomous Vehicle
- Automobile Electric Module
- Automobile Engine
- Car 3D design

Year 3

- Automatic Control Electronic Circuit
- Mobility System
- Auto Parts Element Design
- Vehicle Dynamics
- Automotive Solid Mechanics
- Vehicle data analysis, etc.
- Electric Circuit Theory

Year 4

- Eco-friendly Vehicle Structure Practice
- Autonomous Vehicle Echnology
- Mobility Motor Control
- V2X communication
- Autonomous Vehicle Production
- Autonomous Driving V2X, etc.
- Autonomous Driving
- Automobile design
